Education

Indian Institute of Information Technology (IIIT), Tiruchirappalli

Bachelor of Technology in Computer Science and Engineering (CGPA: 7.6)

Aug 2023 – May 2027

Tamil Nadu, India

Experience

47Billion

AI & Backend Development Intern

May 2026 – Present

Indore, India

- Built an intelligent **QA Bot** using **LangChain** and **RAG** architectures to automate queries and enhance retrieval accuracy.
- Architected data pipelines with **vector embeddings** to provide contextual awareness to LLMs across complex workflows.
- Applied advanced **prompt engineering** to optimize model performance, reasoning, and autonomous task execution.

Technical Skills

Languages: Java, C++, JavaScript (ES6+), Python, SQL (PostgreSQL), HTML/CSS

AI & LLMs: LangChain, AI Agents, RAG, Prompt Engineering, Vector Embeddings

Backend: Spring Boot, Spring Security, WebSocket (STOMP/SockJS), REST APIs

Frontend: React.js, Redux Toolkit, Tailwind CSS, Monaco Editor, WebRTC, Material UI, Axios

Tools & Platforms: Git/GitHub, Docker, AWS, Postman, Linux, Vercel, Render, Judge0, Maven

Projects

LiveInterview — Real-Time Collaborative Interview Platform | [Code](#) | [Live](#)

Jan 2026 – March 2026

Tech Stack: Spring Boot, React.js, PostgreSQL, WebSockets, WebRTC, Monaco Editor, Judge0

- Developed a real-time technical interview platform enabling live coding and P2P video communication.
- Implemented low-latency collaborative code editing via WebSockets with role-based synchronization.
- Integrated WebRTC for A/V communication and Monaco Editor for a browser-based IDE experience.
- Secured code execution by proxying Judge0 requests through the backend, preventing API key exposure.
- Added interview integrity signals (ESC detection, copy/paste monitoring, tab-switch tracking) to enhance security.

Sangraj Rentals — Full-Stack Vehicle Booking System | [Code](#) | [Live](#)

Jul 2025 – Nov 2025

Tech Stack: Spring Boot, React.js, PostgreSQL

- Developed a full-stack car rental platform with hourly availability checks and dynamic scheduling.
- Implemented secure **RBAC** with backend admin initialization and user email verification.
- Designed a fleet management system to manage vehicles, track bookings, and monitor revenue analytics.
- Secured REST APIs with **Spring Security** and **JWT** for booking, review, and contact endpoints.
- Built dual Admin/User dashboards for booking management, cancellations, and profile tracking.

Programming Achievements

Flipkart Grid 7.0 Semi-Finalist: Reached National Semi-Finals by solving complex engineering challenges. ([Certificate](#))

Problem Solving: Solved **1600+** problems across competitive programming platforms.

LeetCode: Max Rating **1792**; Solved **850+** problems; Top 3% in Weekly Contest 445 (Rank 702/25k).

CodeChef: **3-Star** Coder (Max Rating 1672); Global Rank **203** in Starters 179 (Div 3).

Codeforces: Solved **200+** problems focusing on constructive algorithms and implementation.

GeeksforGeeks: Solved **200+** problems covering core CS fundamentals (Trees, Graphs, DP).

Relevant Coursework

Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Extracurriculars

Stanford ML: Certified in Supervised Learning & Advanced Neural Networks via Coursera ([Cert 1](#), [Cert 2](#)).

Sports MVP: 3-time College Champion in **100m Sprint**; Best Player award in Inter-College Football & Kho-Kho.
